Product Family: FG-RIFFEL

Product Specifications

Attribute	4.5KG	8.2kg	9kg	Tolerance
Product Description	RIFFEL 4.5KG WHITE 270 X 350 MM P/P OF 500	RIFFEL 8.2KG WHITE 350 X 480 MM P/P OF 250	RIFFEL 9KG WHITE 350 x 540 P/P OF 250	
Dimensions	270mm X 350mm	350mm x 480mm	350mm x 540mm	±5mm
GSM (Grams per Square Meter)	55g/m ²	55g/m ²	55g/m ²	±5 g/m ²
Quantity per pack (units)	500	250	250	±2%
Quantity per pallet (packs)	24	24	24	
Adhesive	Yes	Yes	Yes	-

Material Composition

Component	Typical Value	Tolerance
Base Paper	55 gsm Bleached wood-free paper	±10% (as per supplier specification)
Adhesive	Food-contact approved Starch adhesive	-
Colour	White	-
Cobb (1 min)	25g/m ²	±5g/m ² (as per supplier specification)

Application

The product is designed to provide impact stabilisation and protection for fresh produce during harvesting, storage and transportation. The corrugated paper provide cushioning and impact stabilisation to assist in protecting produce. The product is manufactured in an FSC 22000 certified facility under a certified Food Safety Management System.

Sustainability

The paper component of this product is **recyclable where suitable collection, sorting and recycling facilities exist**. Actual recyclability is dependent on local recycling infrastructure and the condition of the used product. The product should be disposed of in accordance with applicable local waste management regulations.

Delivery / Packaging

1. Finished product is packed in plain white plastic bags.
2. Packs are palletised in accordance with the approved pallet configuration.
3. Pallets are securely strapped and stretch wrapped to ensure safe transportation.
4. Standard pallet dimensions: 1000mm × 1200mm.

Storage Conditions

1. Store in a dry, well-ventilated area away from direct sunlight.
2. Ideal storage temperature: 10 – 25°C.
3. Avoid exposure to extreme temperature fluctuations.
4. Store in original packaging until use.

Traceability

1. Product description clearly identified on the product label.
2. Batch number for full product traceability.
3. Production date recorded on each batch.
4. Raw material batch numbers recorded on production documentation in accordance with the traceability procedure.

Additional Notes:

This specification is intended as a general guide for the manufacture and supply of MAMS (Interleaves) 60 gsm. Customers are responsible for determining the suitability of the product for their intended application. Product performance may vary depending on produce type, storage conditions and packaging configuration.
