

DECLARATION OF CONFORMITY

Packaging and Packaging Waste Regulation (EU) 2025/40

Sluppier

FLS Agri CC
35 Patrys Crescent, Unit 7
Okavango Park, Brackenfell, 7560
South Africa

Scope

This declaration applies to self-adhesive labels and related labelling materials supplied by FLS Agri for packaging applications.

Declaration

FLS Agri declares that the supplied products are sourced from approved manufacturers who have confirmed compliance with applicable requirements of Regulation (EU) 2025/40 (PPWR) and, where applicable, relevant EU food-contact legislation. FLS Agri acts solely as a distributor and does not manufacture or alter the supplied products. Compliance is based on declarations and technical documentation provided by the original manufacturer and paper suppliers.

Heavy Metals Compliance

FLS Agri confirms that the paper, inks, adhesives and other materials used in the manufacture of our labels are sourced from approved suppliers who provide declarations and supporting documentation confirming compliance with applicable heavy-metal requirements. Based on supplier declarations and available technical documentation, the materials comply with the applicable limits for Lead (Pb), Cadmium (Cd), Mercury (Hg) and Hexavalent Chromium (Cr VI), including the combined limit of 100 mg/kg where applicable under Regulation (EU) 2025/40 (PPWR). Compliance is supported by documentation obtained from our approved paper and printing-material suppliers.

Supporting Documentation

All relevant documentation regarding paper and ink specification to be will be attached to this DOC.

Traceability

All products supplied by FLS Agri are identified by supplier/work order batch numbers and can be traced through purchasing and distribution records.

Validity

This declaration remains valid provided that the product composition, intended use and applicable legislation remain unchanged and that the manufacturer's supporting documentation remains current.
