Dear Customer,

Thank you for your recent inquiry regarding Avery Dennison products.

Avery Dennison and its suppliers do not intentionally add **PFOS, PFAS, PFOA, PFCAs, PFHxS, and PFHxA** to the above substances as ingredients to the manufacturing of the product listed above; therefore, they are not expected to be present in the final composition. If these substances happen to be present, they likely would be present only at a trace level. Because we do not routinely analyze our products for these substances, we cannot state categorically that the materials are “free” from these substances.

The disclosed information referenced above is, to the best of our knowledge, based solely on the data and information provided by our raw materials suppliers. Given that Avery Dennison LGM has not conducted testing, we recommend that you or your customer(s) make your own determination on the suitability of the products listed above for your particular application. We believe this information is accurate and is offered in good faith. This information is subject to revision when additional knowledge/information is gained.

Sincerely,
Product Compliance
Label and Graphic Material

This product information contained in this letter reflects the current specifications as of the date shown. This technical information is for guidance only and is subject to change. This information applies to products supplied directly by Avery Dennison. Avery Dennison makes no guarantee of results and assumes no obligation or liability whatsoever in connection with the information provided in this letter. Avery Dennison recommends that the customer conduct qualification testing before printing, converting, or applying any product, and all Avery Dennison products are sold with the understanding that our customer has independently determined the suitability of such products for its purposes. If the product(s) listed in this letter undergo further processing by our customers, our customers are then responsible for assuring that the further worked material complies with all applicable requirements for their own application. All Avery Dennison statements, technical information and recommendations, including those in this letter, are based on tests believed to be reliable but do not constitute a guarantee or warranty. All Avery Dennison products are sold subject to Avery Dennison's general terms and conditions of sale found at <http://label.averydennison.com/en/home/terms-and-conditions.html>.
