Fasson® Semigloss Paper FSC/ S2045N / BG40 YELLOW IMP

A smooth white, one side machine coated wood free paper exhibiting good printability for general purpose labels.

Applications

Salient Features

- Low adhesive build up on press and applicators resulting in improved efficiency.
- Optimum adhesion on wide range of substrates.
- Consistent quality enabling high speed converting and printing efficiency.
- Defined service guidelines.

Facestock

A smooth white, one side machine coated wood free paper exhibiting good printability for general-purpose labels. Facestock is made with FSC pulp. FSC certification ensures that products are made from responsibly managed forests. (FSC certification code SGS-COC-010380)

Basis Weight	78 gsm ± 10%	ISO 536
Caliper	68 µm ± 10%	ISO 534

Adhesive

A general-purpose permanent rubber based adhesive featuring high initial tack and good ultimate bond strength to a wide range of substrates. The Adhesive used in this product contains more than 30% Bio Based components that are derived from renewable sources.

Liner

A supercalendered glassine paper with excellent strength characteristics.,

Basis Weight	57 gsm ± 10%	ISO 536
Caliper	50 µm ± 10%	ISO 534

Laminate

Total Caliper	130 µm ± 10%

Typical Performance Data

Initial Tack	640 N/m	FTM 9 glass
Peel Adhes. 90°	360 N/m	FTM 2 st.st.
Min. appl. temp.	0°C	
Service temp.	-40°C to 70°C	

**Typical Performance Data only serves as reference to product performance under specified testing conditions and does not represent a product specification. Customers are recommended to test under actual conditions of use to determine its suitability.*

Applications and Use

Typical applications include labels for Cosmetics, Health & Beauty Aid products, lubricants, household chemicals and other general purpose prime label applications. It is recommended that following points should be taken into consideration before label application-

- Container should be free of contamination either in the form of mould release agent or a physical contamination in form of dry powder or liquid.
- The concentricity of the cylindrical containers should be in tight tolerance.

Food Industry Label : The adhesive complies with FDA regulation section 175.105 for use on dry and moist, non fatty foodstuffs.

Conversion/Printing

Fasson® Semigloss product is printable by all conventional printing technologies in single and/or multicolour, line or process printing by Letterpress, Offset, Flexo or Screen. Faster drying inks are recommended for imprinting. A higher gloss finish can be achieved by additional varnishing. Good conversion characteristics in rotary and flatbed presses.

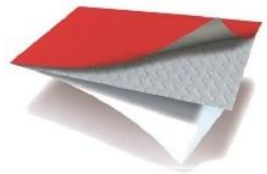

- NB: Not specifically designed and qualified for digital printing technology.

Shelf life

To obtain optimal performance, use this product within two years from the date of shipment, under storage conditions as defined by FINAT (20- 25°C; 40-50%RH). Storage at higher temperatures and/or humidity levels for extended periods of time can reduce shelf life.
