1a The authorized substances subject to specific migration limits listed in table 1 of EU Regulation 10/2011 are used and do not exceed based on analysis results.

1b The authorized substances subject to specific migration limits listed in GB 9685-2016 are used and do not exceed based on analysis results.

\* Smithers Report J8157. Exposure to Tenax cannot be carried out with direct contact with the adhesive surface for technical reasons. Under Regulation (EU) No 10/2011 and GB 31604.1-2015, testing into real foods overrides or is permitted instead of food simulant migration tests.

ND - Not detectable at 0.01 mg/kg.

The ratio of food contact surface area to volume when considering direct labeling on foodstuffs is 2 dm<sup>2</sup>/kg.
