Dear Valued Customer,

Spec(s): **BW8012**

Thank you for your recent inquiry regarding Heavy Metals in Avery Dennison products.

Avery Dennison products comply with the Packaging and Packaging Waste Directive 94/62/EC and US CONEG Model Toxics legislation, in relation to the various heavy metals paragraphs. The requirement imposed by these pieces of legislation for heavy metals is that the sum of Cadmium, Mercury, Lead and Chromium (VI) in products should be below 100 ppm. Based on incidental testing and/or confirmations from suppliers, the concentrations of these substances in LGM products will not exceed the limits.

We can't guarantee zero percentages for the substances, due to the fact that many substances are present in nature and many substances could become part of materials/products/articles by a lot of different causes/ways beyond our control. Furthermore, with the proceeding development of analytical tools and protocols, it could be that substances that can not be detected today, could be detected tomorrow.

The disclosed information referenced above is, to the best of our knowledge, based solely on the data and information provided by our raw materials suppliers. Because LGM has not conducted testing, we recommend that you or your customer(s) make your own determination on the suitability of the products listed above for your particular application. We believe this information is accurate and is offered in good faith. This information is subject to revision when additional knowledge/information is gained.

Sincerely,
Product Compliance
Label and Graphic Materials

This product information contained in this letter reflects the current specifications as of the date shown. This technical information is for guidance only and is subject to change. This information applies to products supplied directly by Avery Dennison. Avery Dennison makes no guarantee of results and assumes no obligation or liability whatsoever in connection with the information provided in this letter. Avery Dennison recommends that the customer conduct qualification testing before printing, converting, or applying any product, and all Avery Dennison products are sold with the understanding that our customer has independently determined the suitability of such products for its purposes. If the product(s) listed in this letter undergo further processing by our customers, our customers are then responsible for assuring that the further worked material complies with all applicable requirements for their own application. All Avery Dennison statements, technical information and recommendations, including those in this letter, are based on tests believed to be reliable but do not constitute a guarantee or warranty. All Avery Dennison products are sold subject to Avery Dennison's general terms and conditions of sale found at <http://label.averydennison.com/en/home/terms-and-conditions.html>.
